Hurricane Harvey - Update #6

The City of Alvin is experiencing weather-related power interruptions. Representatives from Texas New Mexico Power Company don't anticipate the ability to restore power before the evening hours of Saturday, August 26. These power interruptions have caused the traffic signals at a number of intersections to fail. The City is in the process of setting up temporary signage at the affected intersections. If you encounter a signalized intersection where the power has failed and temporary signage is not yet in place, please treat the intersection as a four-way stop and only proceed in proper order and in a safe manner. It is possible that other intersections will be affected as Hurricane Harvey makes landfall. We encourage you to only drive if it is absolutely necessary.
